Application No.: 10/019,491 :
PCT No.: PCT/SE00/01407 : RENEWED PETITION
Int. Filing Date: 03 July 2000 :
Priority Date: 01 July 1999 :
Attorney's Docket No.: 56087-66481 : UNDER 37 CFR 1.47(a)
For: APPARATUS AND METHOD FOR ... :
FROM THEFT :
:

This is in response to the "SECOND RENEWED PETITION UNDER 37 CFR 1.47(a)" filed on 22 July 2003.

BACKGROUND

In a decision from this Office on 22 May 2003, the renewed petition under 37 CFR 1.47(a) was dismissed. The decision stated that with respect to nonsigning inventor Mr. Loffler it had not been sufficiently demonstrated that he could not be found because Mr. Johansson's declaration failed to show diligent effort to locate inventor Mr. Loffler.

On 22 July 2003, petitioner submitted a "Second Renewed Petition Under 37 CFR 1.47(a)" requesting reconsideration of the Office's decision of 22 May 2003 with respect to accepting the above application without the signature of nonsigning inventor Mr. Loffler. Filed with the second renewed petition is a supplemental declaration from Mr. Henrik Johansson, the foreign patent agent who entrusted the undersigned registered patent attorney to enter the national stage in the United States for the above-captioned application.

DISCUSSION

A petition under 37 CFR 1.47(a) must be accompanied by: (1) the fee under 37 CFR 1.17(h), (2) factual proof that the missing joint inventor refuses to execute the application or cannot be reached after diligent effort, (3) a statement of the last known address of the missing inventor, and (4) an oath or declaration by the 37 CFR 1.47(a) applicant on his or her own behalf and on behalf of the non-signing joint inventor.

The second renewed petition filed on 22 July 2003 has satisfied requirement 2 under 37 CFR 1.47(a) with respect to nonsigning inventors.

Mr. Jonasson averments indicate that although a search was conducted by a webbased address search service provided by www.teleauskunft.de and www.das-ortliche-online.de and that he was not able to find an address for Loffler in that manner, he subsequently was able to establish contact with Mr. Loffler via email and obtain Mr. Loffler's new address.

Consequently, the inquiry now turns as to whether the nonsigning inventor refused to sign the required documents after a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) for Mr. Loffeler's signature. Mr. Jonasson declares that as soon as the e-mail confirmation of receipt by Mr. Loffler was received, he once again sent by registered mail to Mr. Loffler a complete application text, assignment and Combined Declaration and Power of Attorney documents. The documents were received by Mr. Loffler and he has not executed the required papers. In fact, Mr. Loffler's email of 21 July 2003 explicitly indicates his refusal to sign the required documents.

Accordingly, the steps enumerated by Mr. Johnasson are sufficient to establish that Mr. Loffler has refused to sign the declaration.

Petitioner has now satisfied items (1), (2), (3), and (4) under 37 CFR 1.47(a), thus completing the requirements under 37 CFR 1.47(a).

CONCLUSION

The petition under 37 CFR 1.47(a) is **GRANTED**.

The Application Division and the International Division are authorized to accept the application as a 37 CFR 1.47(a) application and to mail a filing receipt. The application will be given a 35 U.S.C. 371(c)(1), (c)(2), and (c)(4) date of **22 April 2002**.

As provided in 37 CFR 1.47(a), a notice of the filing of this application will be forwarded to the non-signing inventor at his last known address of record.

A notice of the filing of the application under 37 CFR 1.47(a) will be published in the Official Gazette.

This application is being returned to the United States Designated/Elected Office (DO/EO/US) for continued processing under 35 U.S.C. 371.
